# Program Information

## Jointly Sponsored by:

and

## Mission of SOAP

The purpose of the Society is to provide a forum for discussion of the medical problems unique to the peripartum period and to promote excellence in medical care, research and education in anesthesia, obstetrics, obstetric medicine and neonatology.

## Accreditation and Designation

The Society for Obstetric Anesthesia and Perinatology (SOAP) and this activity of the SOAP Sol Shnider, M.D., Obstetric Anesthesia Meeting has been planned and implemented in accordance with the Essential Areas and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint sponsorship of the American Society of Anesthesiologists and SOAP. The American Society of Anesthesiologists is accredited by the ACCME to provide continuing medical education for physicians.

## Sol Shnider, M.D. Obstetric Anesthesia Meeting

The Society for Obstetric Anesthesia and Perinatology designates this live activity for a maximum of *18 AMA PRA Category 1 Credit(s)*<sup>™</sup>. Physicians should only claim credit commensurate with the extent of their participation in the activity.

## Hands-On Difficult Airway Management Pre-Meeting Workshop

The Society for Obstetric Anesthesia and Perinatology designates this educational activity for a maximum of *7 AMA PRA Category 1 Credit(s)*<sup>™</sup>. Physicians should only claim credit commensurate with the extent of their participation in the activity. This workshop has been approved by the American Association of Nurse Anesthetists for 7 CE credits; Code Number 1025760; Expiration Date 3/22/2012.

## AANA Credits

(Program offering Friday through Sunday)  
This program has been approved by the American Association of Nurse Anesthetists for 18 CE credits; Code Number 1025722; Expiration Date 3/25/2012.

## Target Audience

This meeting is intended for specialists in anesthesiology to include anesthesiologists, nurse anesthetists, residents and fellows. Pediatricians, neonatologists, perinatologists, obstetricians, general practitioners, delivery room nurses, nurse midwives, and clinical pharmacologists may also find educational benefit. The program is generated from member requests and an assessment of need by the program committee. Attendance at this meeting does not guarantee competency or proficiency in the performance of any procedures which may be discussed or taught during the meeting.

## Mission of SOAP Program Committee

The mission of the Society's Program Committee is to provide anesthesiologists, obstetricians, and other physicians and members of related allied health specialties with the knowledge that will reinforce past learning as well as disseminate new concepts, practices, and skills involving anesthesia and analgesia for the pregnant woman.

## Educational Format

CME activities may include the following formats: plenary sessions, debates, lectures, problem-based learning, and skill-set workshops.

## Participation in the SOAP 2012 Sol Shnider, M.D. Obstetric Anesthesia Meeting

Attendance shall be open to all health practitioners, provided that they have registered for the meeting. CME credit will only be offered to M.D.s, D.O.s, CRNAs or the equivalent. A completed Verification of Attendance form must be turned in to SOAP at the conclusion of the meeting. The form will be available onsite.

## Special Needs Statement

The Society for Obstetric Anesthesia and Perinatology is committed to making its activities accessible to all individuals and fully complies with the legal requirements of the Americans with Disabilities Act and the rules and regulations thereof. If you are in need of an accommodation, please do not hesitate to call the SOAP office at 847-825-6472 and/or submit a description of your needs in writing to soap@asahq.org.

## Statement of Need

The SOAP Sol Shnider, M.D. Obstetric Anesthesia Meeting provides a forum devoted exclusively to obstetric anesthesia at which leaders in the field present recent clinical updates and other relevant clinical information.

## Commercial Support Acknowledgement

This CME activity is supported by educational grants. A complete list of supporters will be published in the course syllabus.

## Disclosure

The Society for Obstetric Anesthesia and Perinatology adheres to ACCME Essential Areas, Standards, and Policies regarding industry support of continuing medical education. Disclosure of the planning committee and faculty's commercial relationships will be made known at the activity. Speakers are required to openly disclose any limitations of data and/or any discussion of any off-label, experimental, or investigational uses of drugs or devices in their presentations.

## Resolution of Conflicts of Interest

In accordance with the ACCME Standards for Commercial Support of CME, the Society for Obstetric Anesthesia and Perinatology will implement mechanisms, prior to the planning and implementation of this CME activity, to identify and resolve conflicts of interest for all individuals in a position to control content of this CME activity.

# Program Learning Objectives

## Hands-On Difficult Airway Management Workshop

This workshop is designed to update practitioners on the latest airway data, equipment, and techniques. Following a series of talks and demonstrations that detail various situations in which an airway cannot be established through conventional means, including a discussion of appropriate methods and tools that can be used in the difficult airway management setting, participants will practice these techniques in a hands on training workshop using many types of airway management equipment on mannequins to further sharpen and refresh their skills.

## Urgent Cesarean Section and Failed Epidural Debate

Following this session participants will be able to identify risks associated with regional and general anesthesia following a failed epidural and identify patients most appropriate for each technique that minimize risks and optimize outcome.

## Non-Obstetric Surgery and Postoperative Complications

Following this session participants will be able to discuss multi-disciplinary strategies for fetal monitoring during non-obstetric surgery that optimize outcomes. In addition strategies will be identified that minimize the risk of epidural hematoma and optimize the treatment of post dural puncture headache.

## Changing Demographics in Obstetrics

Upon completion of this session participants will be able to evaluate the impact of co-morbid disease associated with obesity, obstructive sleep apnea and advance maternal age. In addition they will be able to discuss anesthetic management strategies for optimal outcomes.

## Clinical Update and Airway Management

Following this session participants will be able to identify the latest obstetric anesthesia research that impacts clinical practice and also identify strategies to optimize outcome when faced with a failed intubation, including the use of video laryngoscopy in obstetrics.

## Anesthesia Outcomes and Updates

Following this session participants will be able to identify the latest trends and risk factors associated with maternal mortality and will be able to discuss current management strategies for the resuscitation for the mother and the newborn that optimize outcomes.

## Intra-Operative Management

Following this session participants will be able to identify strategies for minimizing blood loss associated with cesarean delivery. In addition participants will be able to discuss the latest recommendations to treat massive maternal hemorrhage and optimize outcomes.

## Pre-delivery Optimization and Anesthetic Management:

Upon completion of this presentation, participants will be able to evaluate and minimize the impact of co-morbid conditions on the pregnant patient, and discuss ways to alter anesthetic management for optimal outcomes.

## Risk Management

Following this session participants will be able to identify how complications impact the anesthesia provider and identify strategies for discussing complications with the patient and family.
