SOAP TITLES 1990

9001  INFLUENCE OF HEIGHT AND WEIGHT ON THE SPINAL ANALGESIA LEVEL IN THE TERM PARTURIENT -- S Pasricha, E Canillas, M Anghel, et al

9002  CONTINUOUS SPINAL ANALGESIA FOR LABOR -- VA Arkoosh, BL Leighton, MC Norris

9003  CONTINUOUS SPINAL ANALGESIA AFTER ACCIDENTAL DURAL PUNCTURE IN PARTURIENTS -- MC Norris, BL Leighton

9004  INCIDENCE OF POSTSPINAL HEADACHE AFTER CONTINUOUS SUBARACHNOID ANALGESIA FOR LABOR -- C Benedetti, HS Chadwick, JJ Mancuso, et al

9005  THE INCIDENCE OF POST DURAL PUNCTURE HEADACHE (PDPH) AFTER SUBARACHNOID BLOCK AND POSTPARTUM TUBAL LIGATION (PPTL): A CLOSED RANDOMIZED COMPARISON OF 26 VS 30 GAUGE SPINAL NEEDLES -- NL Herman, KG Knape, FJ Husain, et al

9006  EFFECT OF INTRATHECAL MORPHINE ON THE INCIDENCE OF SPINAL HEADACHE -- TK Abboud, J Zhu, Z Steffens, et al

9007  EPIDURAL CLONIDINE INFUSION FOLLOWING CESAREAN SECTION -- RM Mendez, JC Eisenach, K Kashtan

9008  CHLOROPROCAINE ANTAGONISM OF EPIDURAL NARCOTIC ANALGESIA: A RECEPTOR SPECIFIC PHENOMENON -- WR Camann, PM Hartigan, LI Gilbertson, et al

9009  EPIDURAL ANESTHESIA WITH OPIOIDS AND LIDOCAINE FOR CESAREAN SECTION IN CHINESE WOMEN: COMPARISON OF FIVE DIFFERENT OPIOIDS -- EC Chuah, WF Kwan, BY Wong, BJ Chen

9010  EPIDURAL SUFENTANIL AND MORPHINE FOR POST-CESAREAN DELIVERY ANALGESIA -- JS Naulty, J Parmet, A Pate, et al

9011  INCIDENCE OF RECURRENT HERPES SIMPLEX VIRUS LABIALIS AFTER CESAREAN SECTION -- JH Weiss, MD Carney, MC Norris, et al

9012  A COMPARISON OF ILIOINGUINAL NERVE BLOCK AND INTRATHECAL MORPHINE ANALGESIA FOLLOWING CESAREAN SECTION VIA PFANNENSTIEL INCISION -- TA Witkowski, BL Leighton, MC Norris

CENTRAL HYPOTHERMIA DURING EPIDURAL ANESTHESIA RESULTS LARGELY FROM REDISTRIBUTION OF HEAT WITHIN THE BODY -- JM Hynson, D Sessler, B Glosten, J McGuire

LOW DOSE ALFENTANIL VS. FENTANYL WITH BUPIVACAINE FOR CONTINUOUS EPIDURAL INFUSION FOR LABOR -- N Ray, S Datta, M Johnson, A Bader

ULTRASOUND EXAMINATION OF STOMACH CONTENTS IN PREGNANT PATIENTS -- H Carp, A Jayaram, P Cramp

SCOLIOSIS AND MOTHERHOOD -- F Reynolds, G Spencer

DISTRIBUTION OF SELF-ADMINISTERED MORPHINE AND MEPERIDINE INTO HUMAN BREAST MILK: ACUTE NEONATAL NEUROBEHAVIORAL EFFECTS -- B Wittels, DT Scott, F Sevarino, RS Sinatra

GLUCOSE IN THE EPIDURAL CATHETER ASPIRATE -- J Waters, S Ramanathan

HUMAN PLACENTAL METABOLISM DURING HYPOXIA -- E Winters, J Arisemendy, S Ramanathan, P Khoo

SITE OF INTRATHECAL CLONIDINE-INDUCED HYPOTENSION -- JC Eisenach

COMPARATIVE EFFECTS OF MAGNESIUM AND BRETYLIUM ON BUPIVACAINE CARDIOVASCULAR TOXICITY -- SM Parness, RJ McCarthy, LM Newman, AD Ivankovich

INTRATHECAL CLONIDINE AND THE RESPONSE TO HEMORRHAGE -- JC Eisenach

EPIDURAL ANESTHESIA WITH BUTORPHANOL AND LIDOCAINE FOR CESAREAN SECTION: MATERNAL EFFECTS AND NEONATAL OUTCOME -- TK Abboud, J Zhu, A Reyes, et al

pH AJUSTMENT OF 0.5 BUPIVACAINE FOR EPIDURAL ADMINISTRATION IN PARTURIENTS: BICARBONATE VS TROMETHAMINE -- WE Ackerman, MM Juneja, JA Herold
9026  VARIATIONS pCO2 INFLUENCE THE EPIDURAL ONSET OF pH ADJUSTED 2-CHLOROPROCAINE IN PARTURIENTS -- WE Ackerman, J Harold

9027  NEAR INFRARED SPECTROSCOPY (NIRS): CLINICAL APPLICATION TO NEONATOLOGY -- JE Brazy

9028  THE EFFECTS OF INTRAVENOUS LIDOCAINE ON CNS TOXICITY IN PREGNANT AND NON-PREGNANT RATS -- BA Bucklin, WW Choi, DS Warner, et al

9029  CONTINUOUS EPIDURAL PCA POST-CESAREAN SECTION: BUPRENORPHINE BUPIVACAINE 0.03% FENTANYL-BUPIVACAINE 0.03% -- S Cohan, D Amar, CB Pantuck, et al

9030  CONTINUOUS EPIDURAL PCA POST CESAREAN SECTION: BUPRENORPHINE - BUPIVACAINE 0.015% WITH EPINEPHRINE VS. FENTANYL: BUPIVACAINE 0.015% WITH AND WITHOUT EPINEPHRINE -- S Cohen, D Amar, CB Pantuck, et al

9031  THE EFFECT OF TEMPERATURE ON LIDOCAINE HYDROCHLORIDE AND LIDOCAINE HYDROCARBONATE DURING EPIDURAL ANAESTHESIA CAESAREAN SECTION -- C Crochetiere, GH McMorland, MJ Douglas, AA Kamani

9032  A COMPARISON OF CONTINUOUS 2-CHLOROPROCAINE INFUSION WITH INTERMITTENT BOLUS INJECTION OF BUPIVACAINE OR 2-CHLOROPROCAINE FOR EPIDURAL ANESTHESIA IN CESAREAN DELIVERY AND ITS IMPLICATIONS IN PAIN CONTROL -- O de Leon-Casasola, M Lema, L Emrich, N Syed

9033  EFFICACY OF INTRATHECAL FENTANYL-LIDOCAINE FOR POSTPARTUM TUBAL LIGATION SURGERY -- WJ Durkan, CH Leicht, DE Evans

9034  PATIENT CONTROLLED EPIDURAL ANALGESIA (PCEA) FOR LABOR: DOES VOLUME OF SELF-ADMINISTERED DOSE MAKE A DIFFERENCE -- DR Gambling, C Huber, C Crotechiere, et al

9035  THE INCIDENCE OF FAILED INTUBATION IN AN OBSTETRICAL POPULATION DURING THE PAST DECADE -- R Glassenberg, N Vaisrub, G Albright, R Forster

9036  BLADDER VS. TYMPANIC CORE TEMPERATURE MEASUREMENT DURING CESAREAN SECTION -- B Glosten, D Sessler, E Faure, K Leah
9037 THE DUAL PERFUSED PLACENTAL LOBULE: AN IDEAL LABORATORY MODEL FOR THE IN VIVO STUDY OF ANESTHETIC AGENT TRANSPORT ACROSS THE HUMAN PLACENTAL -- NL Herman, JW Downing, RF Johnson, et al

9038 ANESTHESIA OUTCOME IN THE MORBIDLY OBESE PARTURIENT -- DD Hood, DM Dewan, K Kashtan

9039 ARE TWO BETTER THAN ONE? AN ASSESSMENT OF A MIXTURE OF BUPIVACAINE AND LIDOCAINE AND ADRENALINE 1:200,000 FOR ELECTIVE EPIDURAL CESAREAN SECTION -- P Howell, W Davies, M Wrigley, et al

9040 NEONATAL NEUROBEHAVIORAL EFFECTS OF CONTINUOUS EPIDURAL INFUSION OF FENTANYL/BUPIVACAINE/EPINEPHRINE IN LABOR -- M Hoyt, P Youngstrom

9041 BACK PAIN FOLLOWING EPIDURAL ANESTHESIA WITH CHLOROPROCAINE -- JM Hynson, DI Sessler, B Closten, J McGuire

9042 EPINEPHRINE AND EPIDURAL MORPHINE SIDE EFFECTS -- EH Kavee, E Winter, M Zakowski, S Ramanathan

9043 EPIDURAL MORPHINE WITH BUTORPHANOL FOR POSTOPERATIVE ANALGESIA FOLLOWING CESAREAN DELIVERY -- CD Lawhorn, J McNitt, EE Fibuch, RJ Leadley

9044 INTRATHECAL SUFENTANIL FOR LABOR ANALGESIA: PRELIMINARY RESULTS OF A PILOT STUDY -- CH Leicht, DE Evans, WJ Durkan

9045 POSTOPERATIVE ANALGESIA WITH EPIDURAL MORPHINE: SINGLE BOLUS VS. DAYMATE ELASTOMERIC CONTINUOUS INFUSION TECHNIQUE -- CH Leicht, WJ Durkan, DH Evans, et al

9046 THE AIR TEST IS A CLINICALLY USEFUL INDICATOR OF INTRAVENOUSLY PLACED EPIDURAL CATHETERS -- BL Leighton, MC Norris, CA DeSimone, JB Gross

9047 INTRATHECAL NARCOTICS FOR LABOR: EFFICACY OF MORPHINE 0.5MG, 0.75MG, 1.0MG, COMBINED WITH FENTANYL 25 MICROGRAMS AV Mankad, LM Segers, PW Pickard, et al
COCaine UPTAKE IN NEWBORN AND ADULT RATS -- HO Morishima, K Khan, T Hara, et al

CONTINUOUS SUBARACHNOID SUFENTANIL FOR LABOR ANALGESIA -- JS Naulty, D Barnes, R Becker, A Pate

EPIDURAL PCA VS CONTINUOUS INFUSION OF SUFENTANIL-BUPIVACAINE FOR ANALGESIA DURING LABOR AND DELIVERY -- JS Naulty, D Barnes, A Pate

THE OPTIMAL DOSAGE OF HYPERBARIC TETRACAINE SPINAL ANESTHESIA FOR CESAREAN SECTION -- PM Pan, ST Wei

EPIDURALS AND UTERINE RUPTURE -- L Parker, DM Dewan

THE PROTECTIVE EFFECT OF TERBUTALINE ON BUPIVACAINE-INDUCED CARDIOTOXICITY -- SM Perry, JR Kambam, R Naukam, W Wright

INCIDENCE OF POST DURAL PUNCTURE HEADACHE IN THE OBSTETRIC PATIENT: SPROTTE VS QUINKE TIP NEEDLE -- BK Ross, HS Chadwick, JJ Mancuso, C Benedetti

THE EFFECT OF DILUTION OF LOCALANESTHETICS ON QUALITY OF EPIDURAL BLOCKADE DURING CESAREAN SECTION -- K Schmidt, S Parnass, J Jaros, et al

CEREBRAL HEMODYNAMIC RESPONSE TO PROGESTRONE -- SS Schwalbe, GF Marx, GP Lu, et al

IMPACT OF A PAIN SERVICE ON LENGTH OF STAY AND COMPLICATION RATES OF POST ABDOMINAL DELIVERY PATIENTS -- R Slover, SK Palmer, S Tinnell

LACK OF REACTIVITY OF UTERINE ARTERIES FROM PATIENTS WITH OBSTETRICAL HEMORRHAGE -- MS Suresh, SH Nelson

VASOPRESSIN CONSTRICTS PERIPHERAL, BUT DILATES CEREBRAL ARTERIES -- C Tong, JC Eisenach

DOSE-RESPONSE STUDY OF CONTINUOUS INFUSION EPIDURAL FENTANYL-EPINEPHRINE FOR POSTCESAREAN ANALGESIA -- P Youngstrom, M Hoyt, M Herman, et al

PHARMACOKINETICS OF INTRATHECAL MORPHINE IN OBSTETRICAL PATIENTS -- M Zakowski, G Grant, P Khoo, et al

EPIDURAL BUTORPHANOL AUGMENTS LIDOCAINE ANALGESIA DURING LABOR -- J Zhu, TK Abboud, A Afrasiabi, et al

AN EVALUATION OF GASTRIC EMPTYING TIMES IN PREGNANCY AND THE PUERPERIUM -- EM Whitehead, M Smith, G O'Sullivan

ANTINOCICEPTIVE EFFECT OF INTRATHECAL MIDAZOLAM IN THE SHEEP -- VA Arkoosh, MC Norris

PUSHING AND DECELERATIONS IN THE SECOND STAGE OF LABOR -- A Bickford, S Snyder

DOES MAGNESIUM SULFATE WORSEN MATERNAL HYPOTENSION DURING EPIDURAL ANESTHESIA IN GRAVID EWES? -- RD Vincent, DH Chestnut, SL Sipes, et al

EVIDENCE FOR ATP SENSITIVE K CHANNELS IN THE HUMAN UMBILICAL ARTERY IN VITRO -- TD Johnson, W Rudersdorf, TH Joyce

EPIDURAL MORPHINE FOLLOWING CESAREAN SECTION: EFFECTS OF BOLUS VS INFUSION AND INCLUSION OF FENTANYL -- TJ Schlairet, JC Eisenach, D Hood, et al

DOES MAGNESIUM SULFATE (MgSO4) ALTER THE MATERNAL CARDIOVASCULAR RESPONSE TO VASOPRESSOR AGENTS IN GRAVID EWES? -- S Sipes, D Chestnut, R Vincent, et al

HYDRALAZINE DOES NOT IMPROVE DECREASED UTERINE BLOOD FLOW DURING COCAINE-INDUCED HYPERTENSION IN THE PREGNANT EWE -- JD Vertommen, SC Hughes, SM Shnider, et al

MATERNAL STRESS RESPONSE DURING CESAREAN DELIVERY IN SEVERE PREECLAMPSIA -- J Ramanathan, B Sibai

ECHOCARDIOGRAPHIC EVALUATION OF MATERNAL MYOCARDIAL FUNCTION DURING CESAREAN -- CM Palmer, P Fenster, MV Boswell, P Scipione
9074 EFFICACY OF INTRAVENOUS CAFFEINE FOR POST DURAL PUNCTURE HEADACHE -- TK Abboud, J Zhu, A Reyes, et al

9075 PHYSICAL STATUS AND OBSTETRIC ANESTHESIA -- E Abouleish, MN Rashad

9076 EPIDURAL BLOCK IN OBSTETRIC PATIENTS: A NEW APPROACH TO PREVENT ACCIDENTAL INTRAVASCULAR INJECTION -- S Cohen, D Amar, H Nagashima

9077 POSSIBLE PREDICTORS OF EPIDURAL ANALGESIA FOR LABOR -- MJ Douglas, MW Bebbington

9078 CONTINUOUS MONITORING OF GASTRIC pH -- B Florence, MN Rashad, E Abouleish

9079 THE EFFECTS OF ACUTE COCAINE USE ON LABOR -- A Hacobian, N Oriol, K Park, C Johnson

9080 SUPPLEMENTAL OXYGEN DURING CESAREAN SECTION UNDER EPIDURAL ANAESTHESIA: NASAL PRONGS VS FACE MASK -- SH Halpern, ET Crosby

9081 SIMULTANEOUS CESAREAN DELIVERY AND CORONARY BYPASS SURGERY - REPORT OF A CASE -- J Hayden, T Mort, T Rintel

9082 STABILITY OF pH ADJUSTED LOCAL ANESTHETICS USED IN OBSTETRIC ANESTHESIA -- WE Ackerman, JA Herold, TR Ware

9083 A RANDOMIZED PROSPECTIVE COMPARISON OF THREE DIFFERENT REGIONAL ANESTHETIC TECHNIQUES FOR CESAREAN SECTION -- JC Holloway, DH Wallace, LS Black

9084 CONTAMINATION OF DRUGS IN AMPULES: THE CONTAINER AS CULPRIT -- PM Kempen, HS Treiber

9085 EPIDURAL BARBOTAGE IN PARTURIENTS: A CLINICAL SIGN OF EXTRAVASCULAR CATHETER PLACEMENT -- PM Kempen, J Hritz, H Traiber

9086 NEURAXIAL MORPHINE PLUS INTRAVENOUS PATIENT CONTROLLED ANALGESIA NEW METHOD IN POSTCESAREAN ANALGESIA -- PM Kempen, H Traiber

9087 LEGAL LIABILITY IMPOSED BY ANESTHETIC STANDARDS -- RM Knapp
LEGAL STATUS OF NON-APPROVED SPINAL AND EPIDURAL NARCOTICS -- RM Knapp

COMPARISON OF TYPE OF ANESTHESIA ON BLOOD LOSS AT CESAREAN SECTION -- SK Pasricha, K Kubal

BLADDER FUNCTION FOLLOWING INTRAMUSCULAR MORPHINE OR EPIDURAL DIAMORPHINE ANALGESIA AFTER CESAREAN SECTION -- JA Patrick, JSL Yoon

INTRATHECAL FENTANYL: AN AID TO PLACEMENT OF THE EPIDURAL NEEDLE IN SENSITIVE PARTURIENTS -- S Ram, TM Mattice

INCIDENCE OF POSTDURAL PUNCTURE HEADACHE IN CESAREAN SECTION PATIENTS USING THE 24G SPROTTE NEEDLE -- DH Sears, MI Leeman, RH O'Donnell, et al

IN-HOSPITAL INCIDENCE OF POSTLUMBAR PUNCTURE HEADACHES (PLPH) IN CESAREAN SECTION PATIENTS ASSOCIATED WITH THE 24 GAUGE SPROTTE NEEDLE AS OPPOSED TO A 25 GAUGE QUINCKE NEEDLE -- MN Skaredoff, HM Sami
