

# SOAP & OpenAnesthesia present:

## OB Anesthesia Fellows Virtual Grand Rounds

Online  
January  
8th!

### **Brendan Carvalho, MBBCh, FRCA, MDCH**

Associate Professor of Anesthesiology  
Chief, Obstetric Anesthesia Division  
Stanford University Medical Center

### **Strategies to Optimize Post-Cesarean Delivery Analgesia**

*This lecture summarizes various multi-modal analgesic options to optimize pain management post-cesarean delivery. The role of neuraxial opioids, non-steroidal anti-inflammatories, acetaminophen, gabapentin, wound infiltration, transversus abdominis plane block, and future analgesic options will be reviewed. Analgesic drug exposure in breast-feeding neonates, and techniques to minimize the transfer of analgesics into breast milk will also be discussed.*

*\*Handouts provided to attendees.*

**Date/Time:** Wednesday, January 8, 2014 at 12:00 PM PST/3:00 PM EST

**Location:** <https://global.gotomeeting.com/meeting/join/787718077>

**Audio:** Use your microphone and speakers (VoIP) - a headset is recommended.

Or, dial (215) 383-1013

**Access Code:** 787-718-077

**Audio PIN:** Shown after joining the meeting

**Meeting ID:** 787-718-077
