

SOAP & OpenAnesthesia present:

OB Anesthesia Fellows Virtual Grand Rounds

Online
May 11th
2016

Michael A. Froelich, MD, MS

Professor of Anesthesiology
Director, Fellowship Program
University of Alabama at Birmingham

Analysis of Longitudinal Data in Anesthesia

The analysis of outcomes obtained at different time points (repeated measures data) is frequently encountered in Obstetric Anesthesia studies.

This review covers the basic principles used in the analysis of these types of data using applied examples.

Articles for Discussion (PDFs attached if free on web):

- Frölich MA et al. What factors affect intrapartum maternal temperature? *Anesthesiology*. 2012;17:302-8. PMID: 22828418
- Frölich MA et al. Hemodynamic characteristics of midazolam, propofol, and dexmedetomidine in healthy volunteers. *J Clin Anesth*. 2011;23:218-23. PMID: 21570617
- Frölich MA et al. Temporal characteristics of cold pain perception.

Date/Time: Wednesday, May 11, 2016 at 12:00 PM PST/3:00 PM EST

Location: <https://global.gotomeeting.com/join/333377877>

Audio: Use your microphone and speakers (VoIP) - a headset is recommended.

Or, dial (408) 650-3123

Access Code: 333-377-877

Audio PIN: Shown after joining the meeting

Meeting ID: 333-377-877
